TRUMPET SCALES: Helpful Hints.....

(use this side of the sheet to see if you have them memorized...)

1. **C** Scale

Common, (all natural) Band Scale

2. **D** Scale

“Dos Sharpos” (spanish for 2sharps; f#, c#)

3. **Bb** Scale

BE flat... (Bb and side Eb)

4. **F** Scale

the **“First”** Finger scale (FGA,10101010 etc.)

5. **Eb** Scale

The **“2-3”** scale ! (Low Eb=23, Ab=23, high Eb=2)

6. **G** Scale

Gee, there’s an F# in this scale !

7. **A** scale

Alphabet, Flowers Can Grow! (F#,C#,G#)

- Memorize each of the **HINTS** listed above.
- Think of the **alphabet** as you play each scale.
- Don’t EVER think of a note as it’s **“enharmonic”** when doing a scale!!!
(...yes, Gb = F# , but when you play the Db scale, think of it as a Gb or it can really “mess you up...”)
- Play through your scales **daily**. 3 minutes daily will pay huge dividends!!
- See if you can memorize ONE each week. (In 7 weeks, you could be done!!)

Finally,

Don’t worry about playing them FAST..... play them WELL, with a good sound and good technique.

“It doesn’t have to be fast to be good.... it has to be good to be good!!”

Use the brain in your head,
not the “brain in your fingers”.

Start on the name of the scale,
go up to the name of the scale and
“plug in the key signature” along the
way.
